| ☐ Garden Grove San Dist. | ☐ Placentia | |

Procedure:

- ☐ **Email this form to [Don Nguyen](mailto:Don.Nguyen@ocsan.gov) in the Compliance team to receive confirmation of date and time of pick-up.**

OC San use: ☐ DBNotification email ☐ Loader Scheduled ☐ Visitor Registration

- ☐ **OC San Plant No. 1 Location:** OC San is located at 10844 Ellis Avenue in Fountain Valley. Present your ID at the Guard Shack. A Compliance staff member will escort you to the compost loading area.

- ☐ **On-site PPE Required:** OC San process areas where the compost is located require the following PPE. Please bring the following for each person onsite.

☐ Hard Hat ☐ Safety glasses or goggles ☐ Hi-vis safety vest ☐ Hard-toed shoes

- ☐ **Transportation Requirements:** To safely transport compost, the following items are required:

☐ Tarp or other method of covering and securing compost.

☐ Gross vehicle weight rating. For reference, 1 scoop (~ 1 cubic yard) of compost weighs 700 - 1,500 pounds – see compost descriptions below. OC San has an onsite scale, if needed.

Biosolids Compost Descriptions:

The following types of compost are available. Member agencies can request more than one type to be loaded during each pick-up.

- ☐ **Synagro - South Kern Compost:** Clean green & wood waste, pre-consumer food waste, and biosolids composted with a woodier and darker color than Synagro's other facility below. Material is screened to 1/2" (1,200 pounds / cubic yard)
- **Quantity Received:** _____ estimated cubic yards (1 loader scoop is ~ 1 cy)
 - After demo/trial loads and to order larger quantities of this material contact: **Tom Kelley** at tkelley@SYNAGRO.com or 951-764-6074.
- ☐ **Synagro - Nursery Products:** Clean green & wood waste and biosolids composted and screened to 3/4" (1,200 pounds / cubic yard)
- **Quantity Received:** _____ estimated cubic yards (1 loader scoop is ~ 1 cy)
 - After demo/trial loads and to order larger quantities of this material contact: **Tom Kelley** at tkelley@SYNAGRO.com or 951-764-6074.
- ☐ **Synagro - Liberty Compost:** 100% biosolids mono-composted and typically no screening needed since fine product ~ 1/4" (1,500 pounds / cubic yard)
- **Quantity Received:** _____ estimated cubic yards (1 loader scoop is ~ 1 cy)
 - After demo/trial loads and to order larger quantities of this material contact: **Tom Kelley** at tkelley@SYNAGRO.com or 951-764-6074.
- ☐ **IERCF:** Clean green waste and biosolids composted and screened to 3/8" (700 pounds / cubic yard)
IERCF compost is not available at OC San. Coordinate directly with IERCF to pick-up demonstration load at facility in Rancho Cucamonga. Contact: **Marcus Coulombe** at mcoulombe@ieua.org or 909-664-7824.
