

Construction Advertising Schedule June 30, 2026

Project No.	Project Name	Approximate Advertise	Construction Estimate	City	PM	Brief Scope
3-60	Knott - Miller Holder Artesia Branch Rehabilitation	Jul-2026	\$13,000,000	Buena Park	Shahrzad Namini	This project will rehabilitate a portion of the Knott Interceptor, Miller Holder Trunk and Artesia Branch sewers in the City of Buena Park. The project includes the rehabilitation of 3,900 feet of 18-inch to 45-inch sewer, rehabilitation of 37 manholes, and installation of two new 84-inch manholes. One new air jumper will also be installed in the City of La Palma.
FE23-05	Primary Clarifier Nos. 6-31 Scum Pump Replacement at Plant No. 1	Jul-2026	\$1,800,000	Fountain Valley	Daniel Lee	This project will replace all 12 existing scum pumps and modify pump suction/discharge piping and associated relief valves and steam piping in Primary Clarifiers No. 6-31 at Plant No. 1
FRC-0020	College Pump Station Wet Well Rehabilitation	Aug-2026	\$4,376,000	Costa Mesa	Hyeyoung Oh	This project will rehabilitate the deteriorating wet well at College Pump Station by removing and replacing unsound concrete, corroded reinforcing steel, and coating inside of the wet well.
P1-141	Administrative Facilities Demolition	Aug-2026	\$9,500,000	Fountain Valley	Hyeyoung Oh	This project will demolition existing Administrative Facilities Buildings and repurpose the space for additional parking and future contractor staging. The project includes relocation of copper lines, MPOE, fiber network and communications.
FR1-0024	Power Building 7 & 8 Generator and Certirfuge Motor Disconnect Improvements at Plant No. 1	Sep-2026	\$665,000	Fountain Valley	Daniel Lee	This project will install electrical conduit improvements (splice box, powerblocks, and cable trays) for the 3 dewatering centrifuges and 3 thickening centrifuges at Plant No. 1. This project will also install stationary load banks at Power Buildings 7 and 8 at Plant No. 1.
FRJ-0003	Interplant Gas Line Blow Off Vault Repairs	Sep-2026	\$1,100,000	Fountain Valley, Huntington Beach	Daniel Lee	This project will make improvements to the 10 blow off vaults along the Interplant Gas Line the isolation valve structures at both Plant 1 and Plant 2 to address corrosion concerns. 9 of the vaults will be replaced.
FE25-01	Sunflower Pump No. 2 Replacement at Plant No. 1	Oct-2026	\$5,100,000	Fountain Valley	Steve Speakman	This project replaces Sunflower Pump No. 2 and appurtenances.
J-124	Digester Gas Facilities Rehabilitation	Oct-2026	\$138,700,000	Fountain Valley, Huntington Beach	Jacob Dalgoff	This project will rehabilitate the existing gas compressor facilities at both plants. This includes seismic upgrades to the gas compressor buildings, rehabilitation of electrical and I&C systems, and rehabilitation of other necessary auxiliary equipment. It will also replace the existing flares with low pressure ultra-low emission flares.
P2-137	Digesters Rehabilitation at Plant No. 2	Oct-2026	\$50,600,000	Huntington Beach	Rich Leon	The project will rehabilitate existing Plant No. 2 digesters including repairing the digester domes, walls, and bridges, rehabilitating the hot water piping system, improving miscellaneous safety related items, and replacing electrical motor control centers that are obsolete.
FE24-10	Activated Sludge Clarifier D, G, and J Equipment Replacement at Plant No. 2	Nov-2026	\$5,100,000	Huntington Beach	Steve Speakman	This project will replace collection system mechanisms in three clarifiers and add monitoring systems to two.
FR1-0019	Generator Protection Relay Replacements & Add Control Center Backup Power at Plant No.1	Nov-2026	\$600,000	Fountain Valley	Daniel Lee	This project will upgrade the existing protection relays at Power Buildings 2, 4, 7, and 8 at Plant No. 1. This project will also modify the power distribution system and provide a secondary power source from PB4 for PDP-1 and the server room chiller at the Plant No. 1 Control Center.
FE23-10	12 kV Switchgear Replacement for Power Building 5 at Plant No. 1	Dec-2026	\$1,840,000	Fountain Valley	Andrew Cole	This project will replace existing switchgear unit located inside Plant No. 1 Power Building 5 with a new switchgear unit. Other associated installations include new battery system, new conduits and wiring, new PLC alarms, new differential current transformers, new circuits, and emergency eyewash and shower.
FR1-0027	Aeration Blowers Vane Actuator Replacements at Plant No. 1	Apr-2027	\$977,000	Fountain Valley	Deanie Ding	The project will replace the vane and diffuser actuators and upgrade the local control programming. The work covers five (5) blowers at AS1 and four (4) blowers at AS2.
P1-140	Blower building 1 Standby Power Improvements at Plant No. 1	Apr-2027	\$46,000,000	Fountain Valley	Hyeyoung Oh	This project consists of the demolition of the two existing Turbine Generators that are currently supplying the standby power system for Blower Building-1 (BB-1), and the installation of a new standby power distribution feed from the Headworks standby power facility to the BB-1 as a replacement. In addition to this element, the scope also includes installation of a new Uninterruptable Power Supply (UPS) system within BB-1 and demolition of Power Building 2 (PB2) after all existing electrical loads have been rerouted to appropriate locations.
FRC-0018	Valve Replacements at Lido, Crystal Cove, A St., and 15th St. Pump Stations	May-2027	\$1,700,000	Newport Beach	Janet Marroquin	This project will replace various valves at Lido, Crystal Cove, A St., and 15th St. Pump Stations and wet well lining at A St. and 15th St. Pump Stations.
P1-126	Primary Sedimentation Basins No. 3-5 Replacement at Plant No. 1	Jul-2027	\$237,500,000	Fountain Valley	Rich Leon	This project will replace Primary Sedimentation Basins (PSB) 3-5 and all associated facilities including distribution boxes, junction boxes, primary influent and effluent lines, structural, mechanical, and electrical systems. PSB's 3-5 will be raised to allow gravity flow to secondary treatment. The project will also replace the primary odor control facility. The project will demolish PSB's 1 and 2, Primary Effluent Pump Station (PEPS), and the old control center building.

Construction Advertising Schedule June 30, 2026

Project No.	Project Name	Approximate Advertise	Construction Estimate	City	PM	Brief Scope
FE24-09	Security Fence Replacements at Plant No. 1 and No. 2	Aug-2027	\$1,140,000	Fountain Valley, Huntington Beach	Shannon Garcia	This project will replace existing chainlink fence surrounding OC San Plant No. 1, No. 2, and the Gisler Air Jumper 3 Facility with steel fencing and access gates.
P2-136	Activated Sludge Aeration Basin Rehabilitation at Plant No. 2	Dec-2027	\$50,000,000	Huntington Beach	Shahrazad Namini	This project includes structural rehabilitation of the aeration basin deck; crack repair and coating the interior of basins; replacement of miscellaneous mechanical equipment, components, and piping, including all gates, valves, and appurtenances; refurbishment of control panels; and improvement of cable trays and concrete repairs in tunnel.
FRC-0021	Force Main Rehabilitation at Lido and Seal Beach	Mar-2028	\$1,700,000	Seal Beach, Newport Beach	Janet Marroquin	This project will rehabilitate critical sections of the Seal Beach and Lido force mains to address accelerated corrosion, extend asset life, and reduce the risk of structural failure and environmental impacts. At Seal Beach, the work focuses on approximately 200 feet of deteriorated 30-inch cement-mortar-lined steel pipe that spans the Bolsa Chica Channel. The project will also rehabilitate approximately 480 feet of unlined 16-inch ductile iron pipe on the east and west Lido force mains, located between the Lido Pump Station and Short Street.
P2-124	Interim Food Waste Receiving Facility	Apr-2028	\$5,300,000	Huntington Beach	Jacob Dalgoff	This project will construct a station to receive, store, and feed pre-processed food waste slurry to three digesters at Plant No. 2 to generate additional digester gas.
P2-128	Digester Replacement at Plant No. 2	Apr-2028	\$408,000,000	Huntington Beach	Shahrazad Namini	This project will build six new anaerobic digesters at Plant No. 2, to be initially operated in mesophilic mode to produce Class B biosolids product and designed for future thermophilic operation to produce Class A product. Supporting facilities and equipment will include sludge pumping, heating, and mixing; odor control; power distribution; and instrumentation and controls.
RE24-01	Hydrogen Sulfide Analyzer Evaluation at Plant No. 1	May-2028	\$2,745,000	Fountain Valley	Carmen Quan	This project will deploy and evaluate multiple H2S analyzers employing diverse detection technologies, with the objective of determining the most accurate and reliable solution for replacing the existing out-of-service units and guiding the selection of technologies for future upgrades at other locations.
J-138	Central Generation Facilities and OOBS Seismic Upgrades	Jun-2028	\$12,000,000	Fountain Valley, Huntington Beach	Rich Leon	Some process area buildings at Plant No. 1 and 2 need structural improvements to reduce the risk of failure during a significant seismic event. The Plant No. 1 buildings include the Central Generation and Solids Storage Facilities. Plant No. 2 includes the Central Generation and the Ocean Outfall Booster Station.
