

Construction Advertising Schedule August 26, 2026

Project No.	Project Name	Approximate Advertise	Construction Estimate	City	PM	Brief Scope
FRC-0020	College Pump Station Wet Well Rehabilitation	Aug-2026	\$7,540,000	Costa Mesa	Hyeyoung Oh	This project will rehabilitate the deteriorating wet well at College Pump Station by removing and replacing unsound concrete, corroded reinforcing steel, and coating inside of the wet well.
FR1-0028	HVAC Replacement at Thickening and Dewatering Building at Plant No. 1	Aug-2026	\$630,000	Fountain Valley	Daniel Lee	This project will replace the existing HVAC units at the Thickening and Dewatering Building at Plant No. 1 with off-the-shelf units (2-80 ton packaged units) that meet the existing loads.
P1-141	Administrative Facilities Demolition	Aug-2026	\$11,380,000	Fountain Valley	Hyeyoung Oh	This project will demolish existing Administrative Facilities Buildings and repurpose the space for additional parking and future contractor staging. The project includes relocation of copper lines, MPOE, fiber network and communications.
FRJ-0003	Interplant Gas Line Blow Off Vault Repairs	Sep-2026	\$1,100,000	Fountain Valley, Huntington Beach	Daniel Lee	This project will make improvements to the 10 blow off vaults along the Interplant Gas Line the isolation valve structures at both Plant 1 and Plant 2 to address corrosion concerns. 9 of the vaults will be replaced.
3-60	Knott - Miller Holder Artesia Branch Rehabilitation	Sep-2026	\$13,000,000	Buena Park, La Palma	Shahrazad Namini	This project will rehabilitate a portion of the Knott Interceptor, Miller Holder Trunk and Artesia Branch sewers in the City of Buena Park. The project includes the rehabilitation of 3,900 feet of 18-inch to 45-inch sewer, rehabilitation of 37 manholes, and installation of two new 84-inch manholes. One new air jumper will also be installed in the City of La Palma.
FE23-05	Primary Clarifier Nos. 6-31 Scum Pump Replacement at Plant No. 1	Oct-2026	\$1,800,000	Fountain Valley	Daniel Lee	This project will replace all 12 existing scum pumps and modify pump suction/discharge piping and associated relief valves and steam piping in Primary Clarifiers No. 6-31 at Plant No. 1
J-124	Digester Gas Facilities Rehabilitation	Nov-2026	\$138,700,000	Fountain Valley and Huntington Beach	Jacob Dalgoff	This project will rehabilitate the existing gas compressor facilities at both plants. This includes seismic upgrades to the gas compressor buildings, rehabilitation of electrical and I&C systems, and rehabilitation of other necessary auxiliary equipment. It will also replace the existing flares with low pressure ultra-low emission flares.
FR1-0019	Generator Protection Relay Replacements & Add Control Center Backup Power at Plant No.1	Nov-2026	\$600,000	Fountain Valley	Daniel Lee	This project will upgrade the existing protection relays at Power Buildings 2, 4, 7, and 8 at Plant No. 1. This project will also modify the power distribution system and provide a secondary power source from PB4 for PDP-1 and the server room chiller at the Plant No. 1 Control Center.
FE25-01	Sunflower Pump No. 2 Replacement at Plant No. 1	Nov-2026	\$5,700,000	Fountain Valley	Steve Speakman	This project replaces Sunflower Pump No. 2 and appurtenances.

Construction Advertising Schedule August 26, 2026

Project No.	Project Name	Approximate Advertise	Construction Estimate	City	PM	Brief Scope
FR1-0024	Power Building 7 & 8 Generator and Certrifuge Motor Disconnect Improviements at Plant No. 1	Dec-2026	\$665,000	Fountain Valley	Daniel Lee	This project will install electrical conduit improvements (splice box, powerblocks, and cable trays) for the 3 dewatering centrifuges and 3 thickening centrifuges at Plant No. 1. This project will also install stationary load banks at Power Buildings 7 and 8 at Plant No. 1.
FE24-10	Activated Sludge Clarifier D, G, and J Equipment Replacement at Plant No. 2	Dec-2026	\$7,400,000	Huntington Beach	Steve Speakman	This project will replace collection system mechanisms in three clarifiers and add monitoring systems to two.
FR2-0034	Truck Loading Biofilter Media Replacement at Plant No. 2	Dec-2026	\$700,000	Huntington Beach	Janet Marroquin	This project will replace the fouled biofilter media in Plant 2 Dewatering Facility's odor control system to restore proper airflow and system performance. Work includes sole source procurement of new media from Biorem, removal and disposal of the existing media, required landfill testing, inspection and repair of the air distribution system, and phased media replacement to maintain operational continuity.
FE23-10	12 kV Switchgear Replacement for Power Building 5 at Plant No. 1	Jan-2027	\$1,840,000	Fountain Valley	Andrew Cole	This project will replace existing switchgear unit located inside Plant No. 1 Power Building 5 with a new switchgear unit. Other associated installations include new battery system, new conduits and wiring, new PLC alarms, new differential current transformers, new circuits, and emergency eyewash and shower.
P2-137	Digesters Rehabilitation at Plant No. 2	Feb-2027	\$50,600,000	Huntington Beach	Rich Leon	The project will rehabilitate existing Plant No. 2 digesters including repairing the digester domes, walls, and bridges, rehabilitating the hot water piping system, improving miscellaneous safety related items, and replacing electrical motor control centers that are obsolete.
FR1-0021	CenGen Fall Protection at Plant No. 1 and No. 2	Apr-2027	\$389,000	Fountain Valley and Huntington Beach	Mohamed Elwan	This project will provide fall protection along parapet walls and hot steam vents coming through the roofs per Cal OSHA requirements at the Cengen Buildings at Plant 1 and Plant 2.
FR1-0027	Aeration Blowers Vane Actuator Replacements at Plant No. 1	Apr-2027	\$977,000	Fountain Valley	Mohamed Elwan	The project will replace the vane and diffuser actuators and upgrade the local control programming. The work covers five (5) blowers at AS1 and four (4) blowers at AS2.

Construction Advertising Schedule August 26, 2026

Project No.	Project Name	Approximate Advertise	Construction Estimate	City	PM	Brief Scope
P1-140	Blower building 1 Standby Power Improvements at Plant No. 1	Apr-2027	\$46,000,000	Fountain Valley	Hyeyoung Oh	This project consists of the demolition of the two existing Turbine Generators that are currently supplying the standby power system for Blower Building-1 (BB-1), and the installation of a new standby power distribution feed from the Headworks standby power facility to the BB-1 as a replacement. In addition to this element, the scope also includes installation of a new Uninterruptable Power Supply (UPS) system within BB-1 and demolition of Power Building 2 (PB2) after all existing electrical loads have been rerouted to appropriate locations.
P1-126	Primary Sedimentation Basins No. 3-5 Replacement at Plant No. 1	May-2027	\$237,500,000	Fountain Valley	Rich Leon	This project will replace Primary Sedimentation Basins (PSB) 3-5 and all associated facilities including distribution boxes, junction boxes, primary influent and effluent lines, structural, mechanical, and electrical systems. PSB's 3-5 will be raised to allow gravity flow to secondary treatment. The project will also replace the primary odor control facility. The project will demolish PSB's 1 and 2, Primary Effluent Pump Station (PEPS), and the old control center building.
FR2-0035	SCE Interconnection Telemetry Improvements at Plant No. 2	Jun-2027	\$1,120,000	Huntington Beach	Andrew Cole	This project will install communication infrastructure at the 12kV Service Center, CenGen and the SCE substation to allow OC San to send power monitoring data from CenGen to SCE to fulfill the requirements of the Generator Interconnection Agreement, allowing OC San to participate in the Wholesale Distribution Access Tariff.
FRC-0018	Valve Replacements at Lido, Crystal Cove, A St., and 15th St. Pump Stations	Jul-2027	\$1,700,000	Newport Beach	Janet Marroquin	This project will replace various valves at Lido, Crystal Cove, A St., and 15th St. Pump Stations and wet well lining at A St. and 15th St. Pump Stations.
FE24-09	Security Fence Replacements at Plant No. 1 and No. 2	Aug-2027	\$1,140,000	Fountain Valley, Huntington Beach	Shannon Garcia	This project will replace existing chainlink fence surrounding OC San Plant No. 1, No. 2, and the Gisler Air Jumper 3 Facility with steel fencing and access gates.
